Edit

The properties described in the table below are shown in the Properties widget:

Property	Description
Title	The title of the content item. This is the string that appears in the title in the Editor.
Navigation Title	For web pages, you can specify a navigation title that differs from the title of the page. The navigation title appears in the website navigation in both the frontend and in the Workspace.
URL Title	The title to use in the friendly URL. For complete information on friendly URLs, see Search Engine Optimization (SEO) .
Publication Status	If the content item is published, "Active" is shown with a green icon. If the content item is not published, "Inactive" is shown with a gray icon. You can change the publication status by clicking [Edit] and navigating to the Status tab in the Content Item Properties panel or using the Actions menu .
Workflow Status	The workflow status of the content item. See Workflow .
Versions	Shows the version of the content item that you are viewing ("1 of 2" for example).
Publication Date	The date the content item was or will be published.
Expiration Date	The date the content item expired or will expire (if any).
Language	The language version of the item.
Revision	Shows the highest (current) revision number of this content item. See Reverting a Content Item for more information.

Preview	Allows you to preview the content item as it appears on the website frontend. See Previewing a Content Item for more information.
Display On	The page on which the item is displayed.

To access the [Properties panel](#), click [Edit].
